

wink · decision sheet — part 1 of 2

Every semantic decision, rendered as it would appear if accepted. Dark left edge = item awaiting your judgment; the rest are settled from evidence. Part 1: W-01 ... W-13.

W-01

actions

OBSERVED

Primary action = filled yellow pill; on yellow fields the primary switches to the dark variant; secondary = outline pill.

Take the tour

On white →

Primary pill

W-02

actions

OBSERVED

All buttons are pills (radius = half-height, ~26px); labels 13/500. No square buttons anywhere.

A pill, not a rectangle

labels stay 13/500

W-03

events

AUTHORED

your call

Hover = gentle spring lift (~3px + warm shadow) on cubic-bezier(0.5, 2.5, 0.7, 0.7); other elements get fast 0.15s feedback.

Default

Button

Hover

Button

W-04

typography

OBSERVED

Soft-serif display for headlines with an italic emphasis fragment allowed; grotesque sans for all body, UI and labels.

Growth that *feels human.*

Plain English over jargon. Question-first, second person.

W-05

typography

OBSERVED

Screen scale: display 48–64 tight-tracked · section 35/1.0 · body 16/1.35 · small 14 · labels 13/500.

Display 40 here

Section 26

Body 16 — the working voice of the page.

W-06

colour

OBSERVED

Yellow = brand field + primary action only; peppercorn = all ink; white/parsnip surfaces; ochre = band terminator; kale links; #BF4055 errors.

Yellow - action

Ink

Parsnip

Ochre

Kale

Error

W-07

surfaces

OBSERVED

Cards: white, borderless, radius 16 (24 large), elevation via warm ink-tinted shadow; tinted variant = parsnip, no shadow.

Borderless card

Shadow tinted with the ink, never black.

Tinted variant

Parsnip, no shadow.

W-08

shape

INFERRED

Shape encodes class: interactive = pill · content vessel = soft 16/24 radius · structural chrome = square.

pill

soft vessel

square chrome

W-09 spacing OBSERVED

8px base scale (8/16/24/32/48); section padding 56–72; card interior 48; button padding 12×24.

W-10 hierarchy OBSERVED

One page title; sections = small uppercase label → serif headline → 1–2 sentence paragraph; numbers may take display treatment.

EMAIL & SMS FOR ECOMMERCE

Section headline

One or two plain sentences follow the headline.

W-11 navigation OBSERVED

Top bar: sticky, transparent over the opening band, ≤68px; text links in sans; primary CTA at right; no bottom border.

W-12 forms AUTHORED your call

Inputs: white, 1px #DEDDDC border, radius 8, 16px text, label above (14/500); error = border + message in #BF4055.

Borrower email

not-an-email

That doesn't look like an email — mind checking it?

W-13 selection AUTHORED your call

Native select styled as a field for small sets (≤ ~12). Larger/filtered selection is out of scope — platform fallback, marked.

Loan days

7 days

Small sets only; the 200-member picker stays undefined by design.

wink · decision sheet — part 2 of 2

Part 2: W-14 ... W-26.

W-14

status

AUTHORED

your call

Status = word-first pill: neutral (parsnip), busy (ink), attention (yellow), problem (red tint). Colour supports the word.

Available

On loan

Overdue

Limit reached

W-16

destructive

AUTHORED

your call

Destructive actions confirm in a rounded dialog with a consequence sentence; confirm = ink pill with the concrete verb; never pre-focused.

Retire “Cordless drill 18V”?

It leaves the register and can't be restored. Loans already out stay recorded.

Retire item

Keep it

W-18

progress

AUTHORED

your call

Progress = pill track (parsnip) with yellow fill in flight, ink when complete, plus a text readout; start/restart as pills.

7 of 10 steps · reconciling loan dates...

Restart import

View log

W-20

repeated content

INFERRED

your call

Ledger: white, 16px padded rows, hairline dividers (no zebra), parsnip header row, row hover tint, status pills inline, ink links underlined.

ITEM	STATUS	
Cordless drill 18V	On loan	View
Heat gun	Overdue	View

W-15

feedback

AUTHORED

your call

Inline notices (rounded, tinted) rather than floating toasts; copy plain, non-blaming, question-first.

Heads up — two items are due back this week. We'll email the borrowers for you.

You've selected more members than this plan shows at once. Narrow the list — we've got your back.

W-17

overlays

AUTHORED

your call

Dialog vessel: white 16px card, 48px padding, warm ink scrim at 35%; instant appearance (no motion defined, none invented).

White card · scrim rgba(35,30,21,.35) · instant

W-19

empty

AUTHORED

your call

Empty state = parsnip panel, one warm sentence, one action pill.

Nothing here yet. Add your first item and it starts showing up for the whole group.

Add an item

W-21

badges

OBSERVED

Emphasis badges: yellow pill, 12/600 label — used sparingly for the “most popular” moment.

Most popular

 labels an option, never decorates a section

W-22 voice OBSERVED

Second person, question-first, plain English, non-blaming; dry wit welcome; italic serif fragment in headlines.

"Not sure how to choose? *We've got your back.*"

Under 250 contacts? It's free.

W-23 imagery OBSERVED

Illustration is a real capability, kept restrained and never over functional content; not reproduced (no asset library).

Illustration-capable zone — empty by policy, not by oversight

W-24 responsive AUTHORED your call

Single-column collapse; hero display steps 64→40; nothing else invented beyond collapse.

64 inside

40 inside

W-26 prohibitions INFERRED

Never: pure black ink/shadows · clinical greys · square buttons · 1px card borders · decorative yellow · invented hues.

× square grey button, #000-text

pill, peppercorn ink

W-25 focus AUTHORED your call

Focus = 3px yellow ring; on yellow surfaces it switches to the ink ring.

On white

Focused

On yellow

Focused
